

DESCRIPTION

The Riva 75 Venere Super is luxury motor yacht with a flybridge that was launched by the iconic, Ferretti-owned Italian boat-building brand Riva. Striking European curves, a shimmering Roman Bronze hull, elegant interiors and turbo-charged performance combined to make this sporty yacht an instant classic.

In the flybridge there is space to the rear for tender storage with a hydraulic davit, while sitting underneath a hard-top canopy across the middle of the bridge is a white, U-shaped leather sofa with an extending teak cocktail table that can also be used for dinner service. To starboard there is a wet-bar station with a sink, fridge, grill and chilled storage, while up front there is curved forward seating, a fully equipped helm station and a full-beam sunpad.

Down on the foredeck there is yet more sunpad space, while to the rear there is a teak-lined aft-deck with a transom dining sofa hugging a table that can host up to ten guests. Side steps lead down to a swimming platform and a transom garage capable of hosting a jet-ski.

A combination of bleached oak surfaces, sand-toned leather, white lacquer, silver accents and mirrored panels enhance the sense of light and space across the main deck salon, though with panoramic side glazing and curved sliding glass doors to the rear, it hardly needs the extra help.

A port-side sofa faces a set of elegant cabinets, while a couple of steps up leads you to a formal dining table with space for eight guests to enjoy lavish meals.

A semi-enclosed galley to port impresses with dark wood cabinets, Corian work surfaces, a multi-zone stovetop and oven as well as a full-height fridge-freezer and a door to the side deck.

A forward pilothouse is not all about the serious business of navigation, as there is room in here for a curved sofa, a coffee table and steps down to the lower deck. The port-side helm station features the very best in hi-tech equipment.

Across the lower-deck there is room for up to eight guests across four cozy en-suite staterooms: a pair of amidship twins and a VIP double to the bow taking up the front half of the boat. A full-beam owner's stateroom to aft features a king-sized bed, a pair of armchairs with a tempered-glass occasional table, a work-desk, a walk-in dressing room, masses of cabinetry. The crew quarters for three accessed via a separate staircase.

FURTHER INFORMATION

Third station in the cockpit

Gyro Stabilizer

Generators with 1000 hours after the rebuilt

WALKWAYS

Both New hydraulic UP/Down Pistons.

Removal and refit of entire cassette for generally overhaul of IN/Out Piston and replace where appropriate worn or perished hoses.

New Besezoni lead weighted rope hand rail.

Removal and renovate Core Hydraulic pack, Solenoids, valves and 24vDC motor. Where appropriate replacing all oil seal, hoses motor brushes and bearings.

GARAGE DOOR

Removal of garage door, rebuilding lubricating, aligning of door hinges aligning and refitting.

Removal of hydraulic door actuators, service and replace all oil seals, inspection of shafts for where, lubricating of knuckles of actuators and replacement of exterior hydraulic hoses.

SWIMMING LADDER

Removal of cassette, replacement cable and rebuilding of hydraulic piston, including all new oil seals, welding of minor hole in cassette case.

COCKPIT TABLE

Removal of the table, application of new teak Veneer and varnished in satin.

TRIM TABS

Replacement of 4 trim tab hydraulic pistons, installation of new oil and inspection of trim pump.

FLYBRIDGE

- Besenzoni Dinghy Crane: Replacement of all Hydraulics hoses, greasing of gearing and replacement

lifting cable. All parts supplied direct from Besenzoni main agent. Cable lifting weight removed, all paint

stripped and powder coated.

- Replaced winter covers for all seating.

- Dinghy: Annual service of Yamaha engine at main engine, inc; zincs, impellor, oil and spart plug.

- Flybridge Control: Installation of a new remote VHF, remotely operated from the lower helm.

- Replacement ZF Control levers.

- Battery replaced as required.

ENGINE ROOM

Generator

- Removal, service and refit of Fuel injection pump x 2, and service of injectors x 8. About

FURTHER INFORMATION

3500hrs.

- Exhaust elbows replaced x 2. About 5000hrs.
- Removal of both cylinder heads; replacement valves, Lapped & valve guides, valve adjustment, replacement head gasket, correct tensioning of cylinder head bolts, inspection of cylinder bores for wear.
- About 4000hrs as per Kohler recommended maintenance schedule. No abnormalities to report. Noticed slight lip on the cylinder bore although well within tolerances.
- Removal of heat exchanger, interior cleaning and re installation, inc new coolant.
- Raw water circulation pumps replaced.
- Renewal of all coolant hoses.
- Exhaust hoses from Exhaust elbows to water lock, replaced.
- Exhaust hoses from Exhaust water lock to rear engine room bulkhead replaced.
- Coolant inlet hose replaced from hull inlet valves until raw water coloaded pump.
- Replacement generator starter batteries.

Watermaker

- Installation of new water maker membranes
- Annual winterisation using three stages; Alkaline, Acid & Preserve. Currently preserved.

Water Pumps

- 240v Fresh water pump replaced.
- 24v fresh water pump, motor brushes replaced.

Fire Suppression System:

- Annual inspection as per flag state regulations.

Batteries:

- Replaced main Service and starter batteries

Grey water pump:

- Annual removal of pump head and non return valve for cleaning and servicing.

Black water pump:

- Annual removal of pump head and non return valve for cleaning and servicing.

Main Engine:

- Annual Service of main engine; engine oil filter, engine oil, Primary Racor Filters, Secondary main engine fuel filters, Air filter. Carried out at the beginning of each seasons.

Gearboxes:

- Annual Service, inc oil and filters replacement.

Coolant hoses:

- Replacement of all coolant hoses located in the engine room; raw water supply to main
-

FURTHER INFORMATION

engine raw water pump, generator coolant hoses, etc.

GALLEY

- Replacement sink tap.
- New Dish washer.

SALOON

- New Ice machine

BRIDGE HELM

- Replacement VHF with raymarine twin Mic system. Base station at helm.

FORWARD BILGES

- Twin 80L boilers replaced for new.

BELOW WATERLINE

- Underwater lights all replaced within last 4 years.
- All anodes replaced annually.
- Antifouled annually.
- Stripped hull with soda blasting, applied international Gelsheild 200, 4 coats. Internal and external cutlass bearings replaced.
- Trim tab Hydraulic pistons replaced. Internal shaft seals replaced.
